

A 42-MINUTE EPISODE, THE AFTERNOON OF DELIVERY

“Legal pulled a shot.
Delivery’s at six.”

No release for the guy in the red jacket.
Crowd_B04 needs to come out of everything
before we deliver.

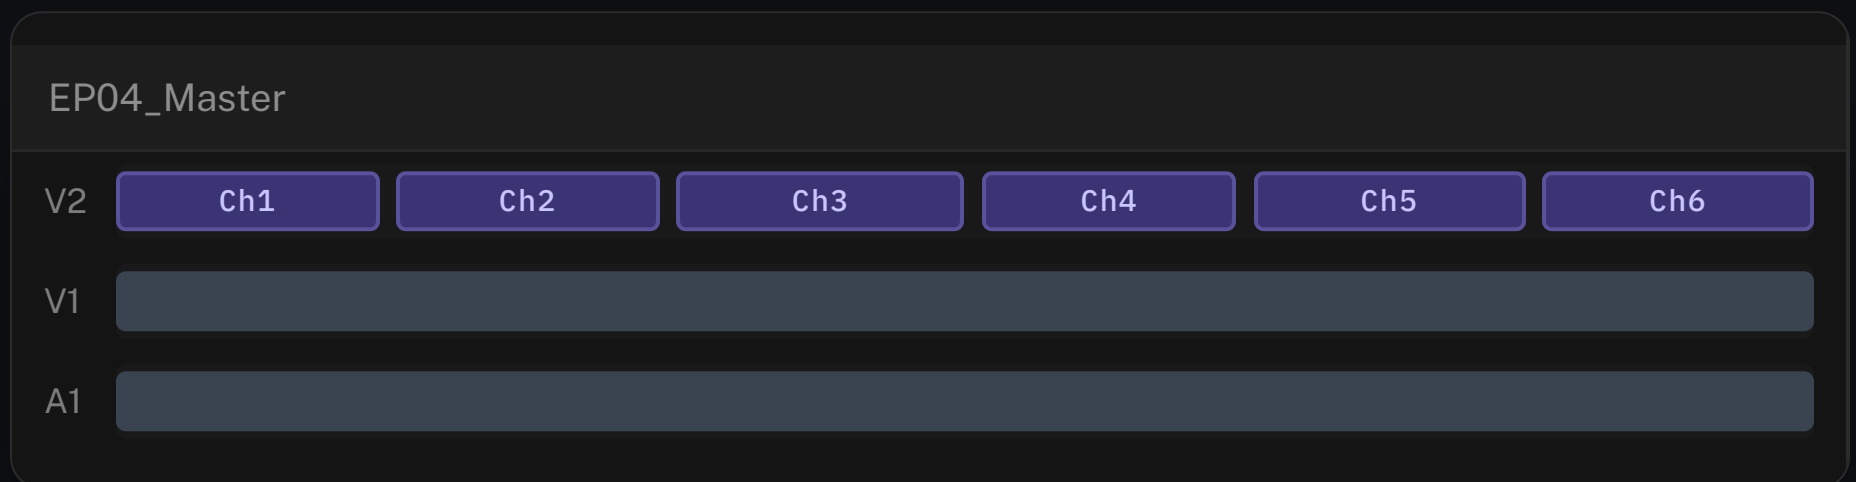

It's in five places. Across
three chapters, each one a
nest.

You fix one. You click away. You've lost the other four.

A selection dies the moment
you click anything else. In a
**42-minute timeline, that's
the whole problem.**

Mark all.

A marker on every use. **Named, numbered, and still there after you click away.**

15:58 → 17:40

**Every use found, every
use marked, delivered with
twenty minutes spare.**

And the undo is honest: one
step per sequence, and
Trace tells you how many
before you ever reach for
Cmd+Z.
