Tiny one! The legal line on the end card needs updating. Can you re-send everything that has it?

You fix the end card once and nesting does the rest.
The hard part is the second sentence.

“Everything that has it.” Which is which, exactly?

The bumpers don’t carry it.
One of the stories doesn’t.
You’d open all twelve to
check.

Select the end card. Trace lists where it lives.

To Trace, a sequence is just
another clip. **Select it and you
get every cutdown it's nested in.**

That's your re-export list.
