

EVERY EDITOR, EVERY REVISION

“Where did I use
that clip again?”

v04. v05. v06.
The 30s. The 9x16.

The clip is in all of them.

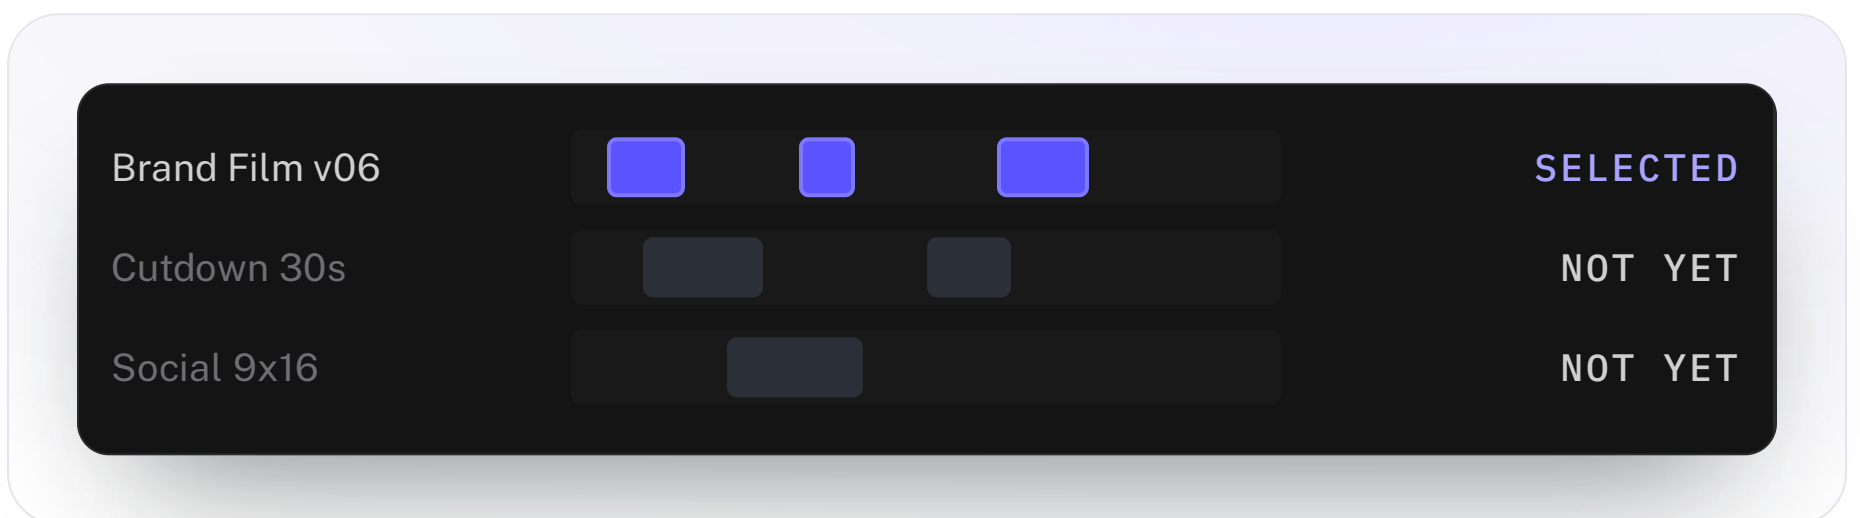

FREE, SINCE SEPTEMBER

Trace finds every use, in every sequence.

That part costs nothing. It is
the free panel.

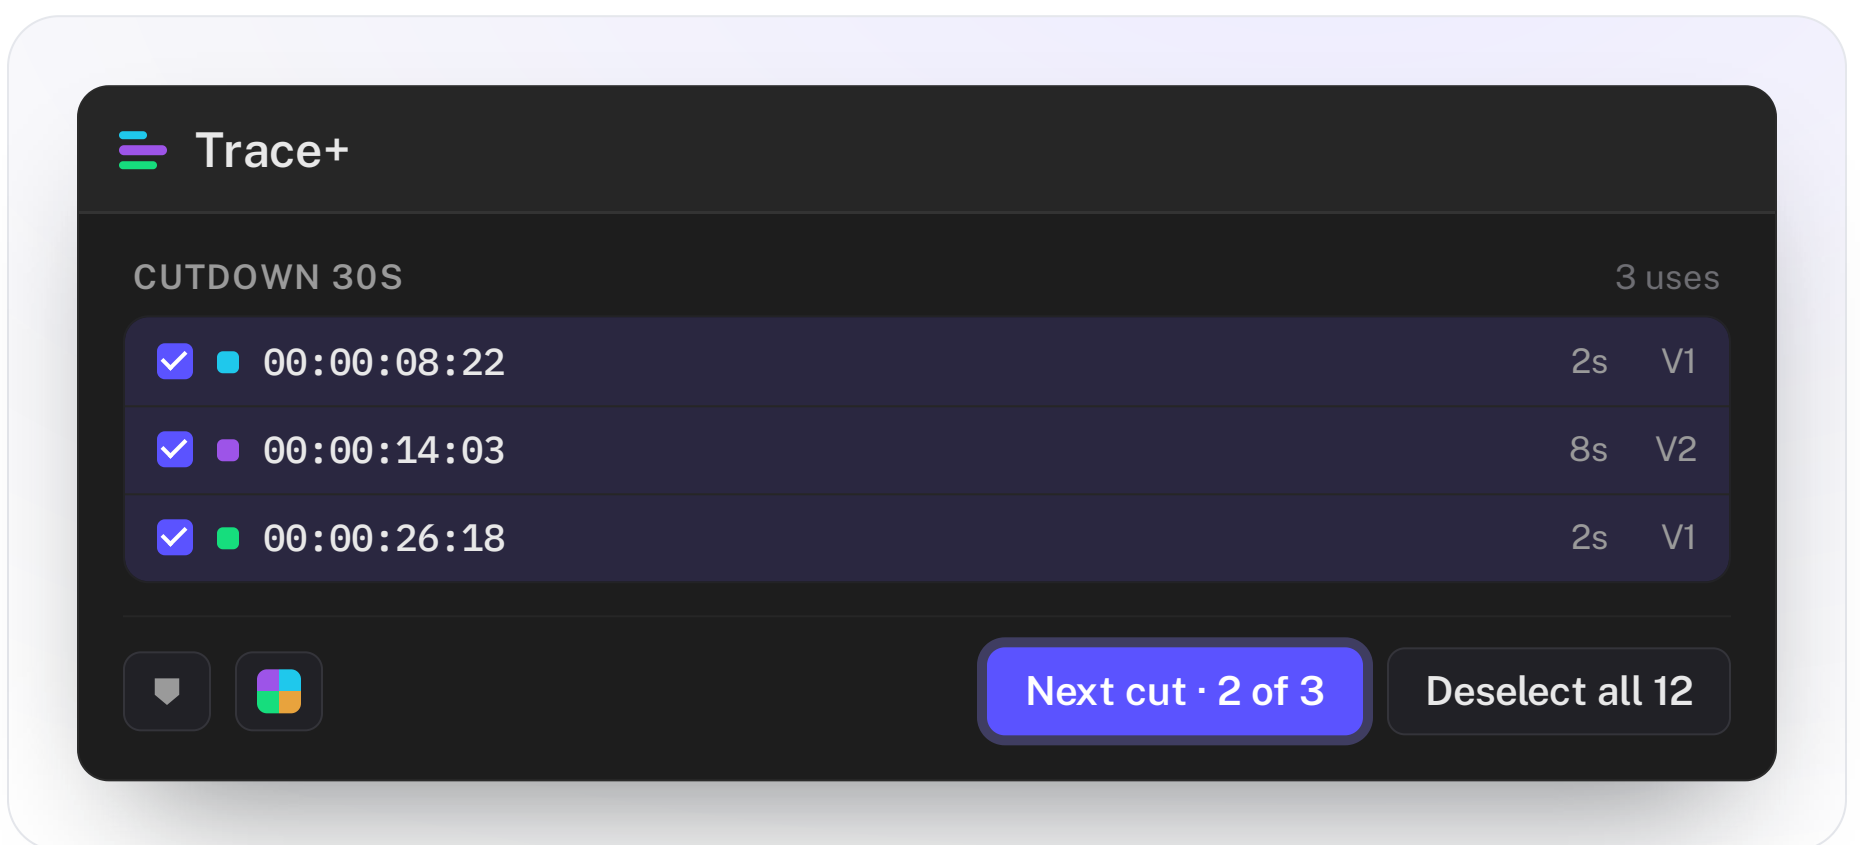

SWIPE →

Premiere selects inside one sequence at a time.

That is Premiere's rule. No plugin gets round it.

So Trace+ steps you through them.

Press Next cut. It opens the next timeline and selects them there.

THEN

3x

Paste attributes **once per cut.**

Not once per clip you had to go
and find.

TRACE+ • £29

Every cut. One round.

 The link is in the post.

Start with Trace, the free one. Same engine.
Premiere Pro 25.6 or newer.
