

BEFORE YOU BUY

£29 for something that touches your project?

Fair question. Here is what it
will never do.

SWIPE →

0

media files deleted. Ever.

Not from your drive, not from shared storage. The only thing it ever removes is an empty bin, and only when you press the button.

WHEN IT MOVES UNUSED MEDIA

IN THE PROJECT

Moved into _UNUSED

ON YOUR DRIVE

Exactly where it was.

It moves the project item.
The file never moves.

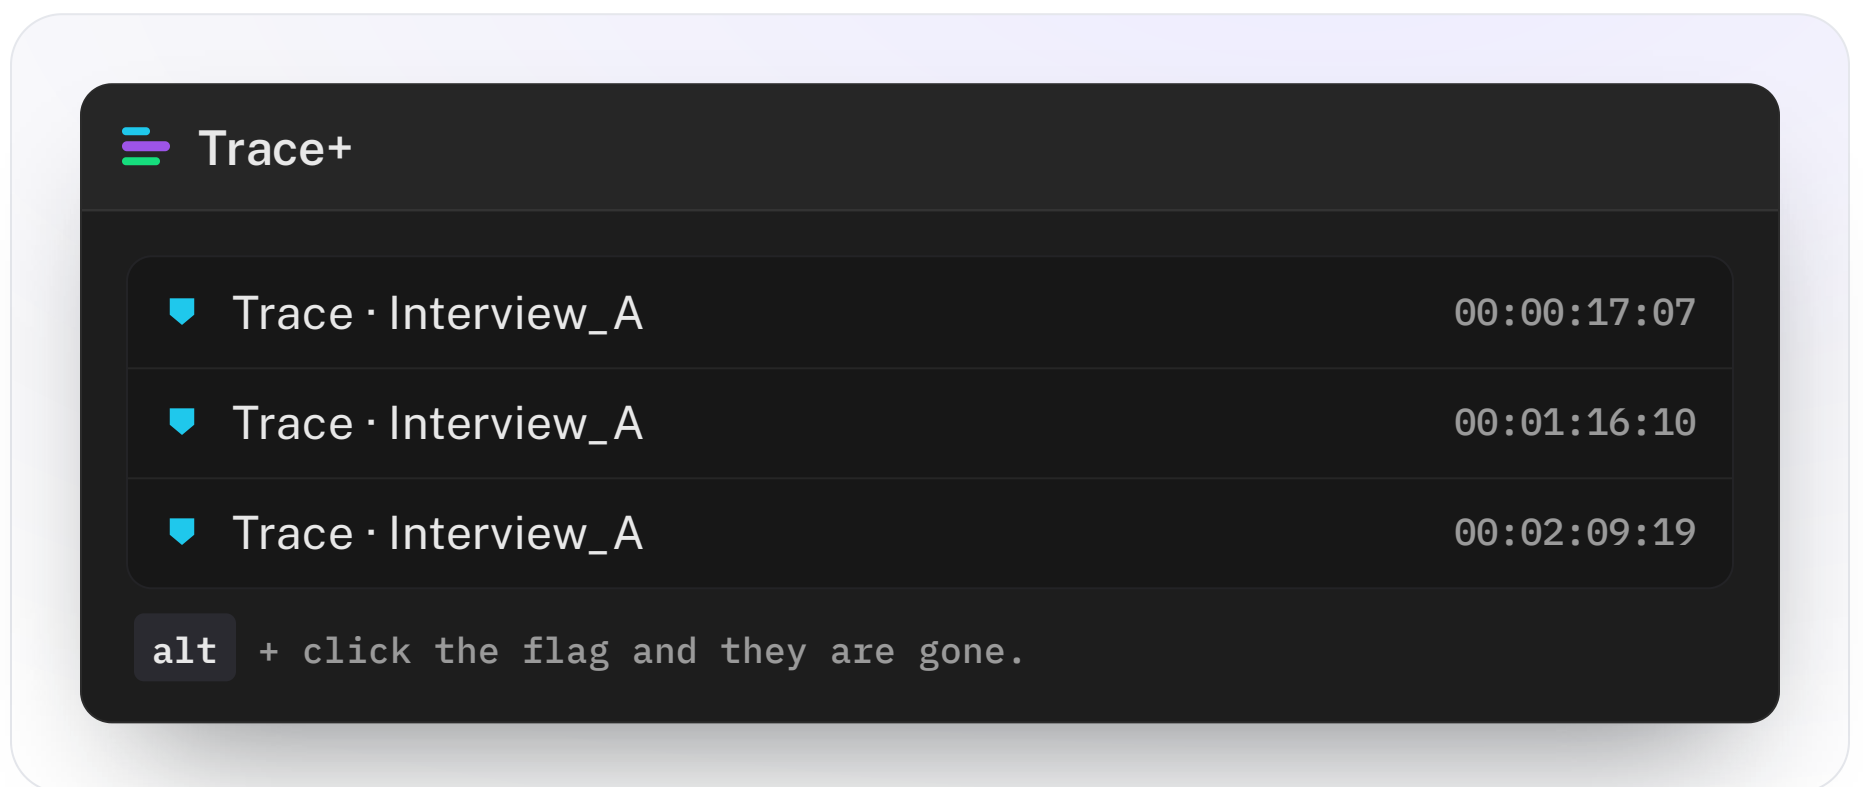

CHANGED YOUR MIND?

Put back is **one button.**

And automatic put-back ships
switched off. Nothing happens
on its own.
