

Need a still? Don't screenshot.

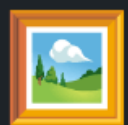

Export Frame →

EXPORT FRAME

Park on the frame, hit the camera icon under the Program Monitor

PNG for online. TIFF for print or a designer

Tick Import into project – it lands in your bin

No camera icon?

Click the + at the bottom right of the monitor and drag it onto the button bar.

A Premiere Pro tip, every Monday and Friday.

Save this one for your next edit – and if you've got a better way, tell me in the comments.
