

Move it a frame. No mouse.

Nudge clips →

NUDGE A SELECTED CLIP

	MAC	WINDOWS
1 frame	Cmd + ← →	Alt + ← →
5 frames	Shift + Cmd + ← →	Shift + Alt + ← →
Up / down a track	Cmd + ↑ ↓	Alt + ↑ ↓

WHERE IT EARNS ITS KEEP

Sliding a sound effect onto the hit

Nudging a title onto the beat

Lining up a cutaway with the cough you're hiding

It leaves a gap behind

If the cut is meant to close up, that's a job for Q and W instead.

A Premiere Pro tip, every Monday and Friday.
